

Nutanix Hybrid Cloud Fundamentals

Durée: 2 Jours Réf de cours: NHCF Version: 6.10 Méthodes d'apprentissage: Virtual Learning

Résumé:

This course is designed for those who are new to Nutanix and want a feature-focused introduction to AOS Storage, our scale-out storage technology, and Prism, our multicloud management interface.

In Nutanix Hybrid Cloud Fundamentals (NHCF), you'll dive into Nutanix centralized management capabilities, with an emphasis on quickly getting hands-on with the Nutanix platform. This introductory course starts by discussing key Nutanix products and cluster-related concepts. Using the Prism Central and Prism Element unified control plane, you will learn how to monitor cluster health and performance, manage software versions, create and manage VMs, and perform basic management tasks on hardware, storage, and networks.

Updated 3/2026

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Public visé:

Network and security operations center personnel who want to learn Nutanix fundamentals (Prism, AOS, AHV) virtualization and cloud-related concepts.

Specific job roles that will benefit from the NHCF course:

- Network Operations Center (NOC) operators
- Security Operations Center (SOC) operators
- Datacenter Operations (DCO) technician
- IT project managers
- IT staff new to Nutanix

Anyone seeking the Nutanix Certified Associated (NCA) certification.

Objectifs pédagogiques:

■ After you complete this course you will be able to:

- Understand core concepts of three-tier and hyperconverged infrastructure (HCI) and the Nutanix platform
- Navigate and use Prism Central and Prism Element for cluster and resource management
- Configure and manage storage, networking, and images within a Nutanix environment

- Create, manage, and monitor virtual machines and related resources
- Implement basic data protection, backup, and disaster recovery strategies
- Monitor cluster performance, health, and alerts, and generate reports
- Manage licensing and perform system upgrades using Life Cycle Manager (LCM)

Pré-requis:

- Basic knowledge of IT infrastructure and virtualization is recommended.

Test et certification

- Nutanix Certified Associate (NCA)

Contenu:

1: Introduction

- Understand three-tier and hyperconverged infrastructure (HCI)
- Understand Nutanix Cloud Solution Packages
- Get started with Prism Central and Prism Element
- Understand Nutanix Pulse
- Understand when to use Prism Central and when to use Prism Element
- Cluster setup fundamentals
- Understand cluster-level security settings

Hands-on Labs 1

- Accessing and exploring Prism Element and Prism Central
- Deciding when to use Prism Central versus Prism Element

2: Hardware and Storage Concepts

- Understand nodes, blocks, and clusters
- Understand types of physical storage
- Understand AOS Distributed Storage
- Understand key storage concepts such as storage pools, storage containers, redundancy factor, replication factor, capacity reservation, cluster resiliency, and snapshots
- Use different Prism Central dashboards to monitor cluster hardware and storage

Hands-On Labs 2

- Exploring the hardware and storage containers dashboards
- Creating a storage container

3: Networking

- Understand AHV networking terminology and key concepts such as managed and unmanaged networks
- Use Prism Central to monitor cluster networks
- Use Prism Element to explore the Network Visualizer

Hands-On Labs 3

- Viewing network configuration in Prism Central
- Using the Network Visualizer

4: Image Management

- Understand the image service
- Use Prism Central to monitor, upload, import, and manage images

Hands-On Labs 4

- Exploring the images dashboard
- Uploading and importing an image to Prism Central
- Uploading an image using Prism Element

5: VM Management

- Use Prism Central to create and monitor VMs
- Perform basic VM management tasks such as updating, deleting, exporting, and cloning VMs; taking snapshots; and creating VM recovery points
- Understand categories and affinity policies

Hands-On Labs 5

- Exploring the VMs dashboard
- Creating VMs
- Creating a VM recovery point
- Cloning a VM
- Exporting a VM as an OVA file

6: Backup and Disaster Recovery Fundamentals

- Understand data protection and data protection strategies
- Create snapshots and recovery points
- Use the Data Protection dashboard
- Create protection domains and remote sites
- Understand Nutanix Disaster Recovery terms and concepts

Hands-on Labs 6

- Creating protection domains and local VM restore
- Configuring remote sites
- Creating protection domains using remote sites
- Performing VM migration

7: Monitoring Cluster Performance and Health

- Use Prism Central to create sessions, charts, and reports
- Understand and explore alerts and events
- Configure alert emails
- Collect logs
- Use the Nutanix Support Portal to create a support case

Hands-On Labs 7

- Adding built-in charts to the Analysis Dashboard
- Creating a custom chart
- Creating a new report
- Viewing, downloading, and scheduling reports
- Monitoring cluster health
- Collecting logs

8: Understanding Licensing and Performing Upgrades

- Understand License Manager
- View license details in Prism and on the Nutanix Support ; Insights Portal
- License a cluster
- Understand Life Cycle Manager (LCM) and the LCM workflow
- Use the LCM dashboard in Prism Central and Prism Element
- Use LCM to perform an inventory

Hands-On Labs 8

- Exploring the LCM dashboard
- Performing inventory at a Connected Site and at a Dark Site

Méthodes pédagogiques :

Software

- AOS
- Prism Central

Autres moyens pédagogiques et de suivi:

- Compétence du formateur : Les experts qui animent la formation sont des spécialistes des matières abordées et ont au minimum cinq ans d'expérience d'animation. Nos équipes ont validé à la fois leurs connaissances techniques (certifications le cas échéant) ainsi que leur compétence pédagogique.
- Suivi d'exécution : Une feuille d'émargement par demi-journée de présence est signée par tous les participants et le formateur.
- En fin de formation, le participant est invité à s'auto-évaluer sur l'atteinte des objectifs énoncés, et à répondre à un questionnaire de satisfaction qui sera ensuite étudié par nos équipes pédagogiques en vue de maintenir et d'améliorer la qualité de nos prestations.

Délais d'inscription :

- Vous pouvez vous inscrire sur l'une de nos sessions planifiées en inter-entreprises jusqu'à 5 jours ouvrés avant le début de la formation sous réserve de disponibilité de places et de labs le cas échéant.
- Votre place sera confirmée à la réception d'un devis ou "booking form" signé. Vous recevrez ensuite la convocation et les modalités d'accès en présentiel ou distanciel.
- Attention, si cette formation est éligible au Compte Personnel de Formation, vous devrez respecter un délai minimum et non négociable fixé à 11 jours ouvrés avant le début de la session pour vous inscrire via moncompteformation.gouv.fr.

Accueil des bénéficiaires :

- En cas de handicap : plus d'info sur globalknowledge.fr/handicap
- Le Règlement intérieur est disponible sur globalknowledge.fr/reglement
