

Preparation for Professional Scrum Master™ I (PSM I) – Including Exam

Durée: 2 Jours **Réf de cours: SCRUM-M** **Méthodes d'apprentissage: Classe à distance**

Résumé:

Professional Scrum Master™ (PSM) is an interactive, activity-based course where students gain a strong understanding of Professional Scrum and the accountabilities of the Scrum Master. Through a combination of discussion and exercises, students develop a deep understanding of the underlying principles of Scrum and the Agile mindset while learning the practices applied by successful Scrum Teams. The course also includes a free attempt at the globally recognized Professional Scrum Master I (PSM I) certification exam.

In this two day class* students are challenged to explore the Agile and Scrum principles so they can better understand what to do when applying Scrum to support their teams and organizations.

The course, developed by Scrum.org, uses a combination of instructor-led and activity-based learning where students work together in teams. Professional Scrum Trainers (PSTs) bring their own Scrum Master experiences and stories to the class and use their skills as professional trainers to deliver the material using their own unique delivery style. The result is an engaging, enjoyable learning experience where students gain a deep understanding of Scrum theory and principles, the Scrum Master accountabilities and why each element of the Scrum framework is important.

Students leave this course with an appreciation for Professional Scrum, the agile mindset and how to deal with common myths and impediments to agility. They gain the knowledge and understanding about how to choose and apply the appropriate practices and techniques that will be most beneficial for their Scrum Teams.

** When offered in-person, this course is generally delivered over two consecutive days. When offered as a Live Virtual Class, the course may be broken up into more, shorter days.*

Classe à Distance - site Client

Cette formation peut être suivie à distance en synchrone depuis n'importe quel site pourvu d'une connexion internet (2 Mb/s en symétrique recommandés). Le programme (théorie et pratique) suit le même déroulé pédagogique qu'en présentiel. La solution technologique adoptée permet aux apprenants à distance de suivre les présentations faites au tableau, de voir et d'entendre l'instructeur et les participants en temps réel, mais également d'échanger avec eux.

Méthodes pédagogiques :

Why Scrum.org

Scrum.org training provides a hands-on, activity-based learning experience using a consistent set of materials around the world no matter which of our Professional Scrum Trainers (PSTs) is teaching the course. Each course explores real-world challenges to help students apply what they learn in their roles once back at work.

The maintenance of Scrum.org courseware is based on feedback from the overall PST community who are delivering each class. They all teach from the same content, bringing great consistency, but also feedback from the real-world to drive incremental improvements and high quality.

On their path to becoming a PST, they must have several years of Scrum experience. Once PST candidates apply, they then go through an extensive process that includes: interviews, validation of knowledge, training, peer reviews and more.

PSTs bring their own style and experiences with a consistent delivery of Scrum.org training around the world, so you know each course we teach is aligned with Professional Scrum, and all of your teammates are learning from the same course materials.

Autres moyens pédagogiques et de suivi:

- Compétence du formateur : Les experts qui animent la formation sont des spécialistes des matières abordées et ont au minimum cinq ans d'expérience d'animation. Nos équipes ont validé à la fois leurs connaissances techniques (certifications le cas échéant) ainsi que leur compétence pédagogique.
- Suivi d'exécution : Une feuille d'émargement par demi-journée de présence est signée par tous les participants et le formateur.
- En fin de formation, le participant est invité à s'auto-évaluer sur l'atteinte des objectifs énoncés, et à répondre à un questionnaire de satisfaction qui sera ensuite étudié par nos équipes pédagogiques en vue de maintenir et d'améliorer la qualité de nos prestations.
