
GDPR - Certified Information Privacy Professional/Europe (CIPP/EU)

Duration: 2 Days Course Code: CIPPE Delivery Method: Company Event

Overview:

This two-day training encompasses pan-European and national data protection laws, key data protection terminology and practical concepts concerning the protection of personal data and trans-border data flows.

The CIPP/E program was developed by the International Association of Privacy Professionals (IAPP), which is the world's largest comprehensive global information privacy community and resource. The CIPP/E certification holds accreditation under ISO 17024: 2012. Are you GDPR-ready?

The General Data Protection Regulation (GDPR) takes effect in 2018, are you ready for it? Among its mandates is the requirement to appoint a knowledgeable Data Protection Officer (DPO) tasked with monitoring compliance, managing internal data protection activities, training data processing staff, conducting internal audits and more. There's a lot to know, there's a lot at stake and there's a lot of opportunity for data protection professionals with the right training and education.

Achieving a CIPP/E credential shows you have the comprehensive GDPR knowledge, perspective and understanding to ensure compliance and data protection success in Europe—and to take advantage of the career opportunity this sweeping legislation represents.

Add a CIPM credential to the CIPP/E and you'll be uniquely equipped to fulfill the DPO requirements of the GDPR. The CIPP/E relates to the knowledge a DPO must have concerning the European legal framework of the legislation, and the CIPM provides theoretical aspects necessary to lead an organization's data protection policy.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

Target Audience:

Individuals who need a foundational understanding of information privacy and data protection and those interested in pursuing CIPP/E certification.
