
Implementing Cisco Advanced Call Control and Mobility Services

Duration: 5 Days Course Code: CLACCM Version: 1.0 Delivery Method: Virtual Learning

Overview:

Implementing Cisco Advanced Call Control and Mobility Services (CLACCM) v1.0 is a five-day instructor-led training (ILT) program and eLearning training (ELT) course that provides students' knowledge about advanced call control and mobility services, focusing on Cisco Unified Communications Manager features such as Globalized Call Routing, Global Dial Plan Replication, Cisco Unified Mobility, Cisco Extension Mobility, Device Mobility, SIP URI call routing, Call Admission Control, Cisco Unified Communications Manager Express and SRST gateway technologies, Cisco Unified Board Element Call deployments, signaling and media protocols, and features such as call coverage and time of day routing.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Prerequisites:

- CLCOR - Implementing and Operating Cisco Collaboration Core Technologies
 - CLFNDU - Understanding Cisco Collaboration Foundations
-
