

Agile Project Delivery

Cursusduur: 2 Dagen Cursuscode: ACT200

Beschrijving:

This course offers great balance between theoretical knowledge and practical exercises on project case studies to allow student to gain a higher understanding of how to use agile techniques on SAP projects. Participants will not only learn a wide-range of concepts, but will have opportunity to practice them in a safe and informative classroom environment.

Doelgroep:

- Project / Program Manager
 - Application Consultant
 - Project team leader and members
-

Doelstelling:

- Participants learn about the SAP Activate methodology in agile implementation techniques in SAP projects.
 - The course enables participants to apply the Agile techniques in their projects through project use cases and simulations.
 - This class is highly interactive
 - This course complements agile courses from other providers, like Certified Scrum Master and/or PMI-ACP training.
-

Vereiste kennis en vaardigheden:

- SAP Learning Hub / SAP Activate Learning Room or
 - ACT100 SAP Activate Methodology
-
