

Red Hat JBoss Application Administration I

Cursusduur: 90 Dagen Cursuscode: AD248 Trainingsmethode: e-Learning

Beschrijving:

JBoss® Application Administration I teaches you the best practices for installing and configuring Red Hat JBoss Enterprise Application Platform 7. Through hands-on labs, learn the essential, real-world tasks that a system administrator needs to know to effectively deploy and manage applications on JBoss Enterprise Application Platform.

Note: AD248 replaces our popular JB248 and JB336 courses and is meant for system administrators. The topics in this course cover all of the exam objectives of the JBCAA exam.

Elearning Access: Red Hat Online Elearning features the same high-quality course content found in our interactive classroom environments and is supplemented with 90-days of unlimited access to course content, plus hours of cloud-based labs, and webinars from Red Hat experts - all of which is optimized for self-study, giving you the practical and applied knowledge you need to advance your skills, prepare for hands-on certification exams, and to further your career. Also see information below regarding the Red Hat Learning subscription

Doelgroep:

System administrators who are both new to JBoss and have experience with JBoss Enterprise Application Platform 5/6

Doelstelling:

- Following attendance on this course, you will be able to demonstrate these skills:
- Install JBoss EAP 7 in standalone mode or as a managed domain.
- Configure the new batch subsystem.
- Administer the HornetQ messaging subsystem.
- Secure applications deployed on JBoss EAP.
- Customize server logging.
- Create and manage datasource connections to databases.
- Manage JBoss EAP clustering.

Vereiste kennis en vaardigheden:

- Base experience with system administration on Microsoft Windows, UNIX, or Linux® operating systems
- Understanding of hardware and networking

No prior knowledge of Java, scripting, or JBoss Developer Studio required

Examens en certificering

After completing this course, you should be prepared to take the JBoss Certified Application Administrator (JBCAA) exam (EX248).

Vervolg cursussen:

JBCAA Exam (EX248)

Cursusinhoud:

Overview of JBoss Enterprise Application Platform (JBoss EAP)	Configure servers in a managed domain	Configure the JVM in standalone mode and in a managed domain.
Learn the concepts and terminology of JBoss EAP 7.	Manage domain server architecture.	Configure the web subsystem
Install and run a JBoss EAP instance.	Configure servers and server groups.	Explore and configure the features of the web subsystem.
Understand extensions, profiles, and subsystems.	Configure datasources	Deploy clustered applications
Configure JBoss EAP in standalone mode	Explore the datasource subsystem and configure JDBC drivers, datasources, and an XA datasource.	Explore clustered applications.
Run and configure JBoss EAP in standalone mode.	Configure the logging subsystem	Configure subsystems that support clustered applications and configure load balancing.
Configure interfaces and socket binding groups.	Configure loggers and logging handlers.	Deploy HA Singleton applications.
Script configure and deploy applications	Configure the messaging subsystem	Configure the batch subsystem
Configure JBoss EAP with command line interface.	Explore the messaging subsystem.	Explore and configure batch jobs and batch subsystem.
Deploying applications in standalone mode.	Configure messaging resources, journals, and other settings.	Discover new features in JBoss EAP 7
Configure JBoss Enterprise Application Platform as a managed domain	Secure JBoss EAP	Explore the new features in JBoss EAP 7.
Run JBoss EAP as a managed domain.	Configure a database security realm, an LDAP security realm, and password vault.	Migrate JBoss EAP 6 applications to JBoss EAP 7.
Assign a domain controller.	Secure a JMS Destination.	Comprehensive Review of Red Hat JBoss Application Administration I
Configure a host controller and domain controller.	Configure the Java Virtual Machine (JVM)	Review the tasks in Red Hat JBoss Application Administration I.
