

Modeling based on ArchiMate® Bootcamp + Examen

Cursusduur: 3 Dagen Cursuscode: AMCV3

Beschrijving:

Dit is een driedaagse cursus voor diegenen die de ArchiMate® Practitioner - level 1+2 certificering vanaf begin willen behalen. Van introductie tot geavanceerde toepassingen, leert u de structuur, de belangrijkste concepten en technieken van de ArchiMate® standaard, en bent u in staat om architecturen te modelleren en te visualiseren.

Daarna leert u geavanceerde toepassingen van de modelleertaal en geavanceerde technieken, complexe modelleersituaties en directe toepassingen op uw eigen praktijkvoorbeelden. Na succesvolle afronding van deze cursus bent u klaar om het nieuwste ArchiMate® Foundation en Practitioner examen af te leggen bij een Pearson Vue Testing Center.

This is a three-day course for those who wish to achieve ArchiMate® Practitioner – level 2 certification from scratch. From introduction to advanced applications, you'll learn the structure, key concepts and techniques of the ArchiMate® standard, and will be able to model and visualize architectures.

After that you will learn advanced applications of the modeling language and advanced techniques, complex modeling situations and direct applications to your own real-world examples. Upon successful completion of this course you will be ready to take the newest ArchiMate® Foundation and Practitioner exam at a Pearson Vue Testing Center.

'This course is being run by Global Knowledge under Commercial License'

Doelgroep:

This training course is very suitable for anyone who wants to be able to read and/or create architecture models: ArchitectsBusiness AnalystsInformation AnalystsDesignersProduct OwnersProject leaders

Doelstelling:

- Understand the background, key concepts and applications of ArchiMate® Core for modeling and describing architectures
- Be able to use the ArchiMate® language and techniques to visualize and communicate architectures
- Understand the additional layers and aspects of the ArchiMate® standard, their viewpoints and their application to core concepts
- Be able to apply the derivation rules for relationships in the language
- Understand the language customization mechanism
- Be able to apply the ArchiMate® standard in complex modeling situations
- Be able to complete the ArchiMate® level 1 & 2 exams

Vereiste kennis en vaardigheden:

No specific prerequisites.

Examens en certificering

The exams are included in the course fee. Certification is only achieved after passing the following 2 exams:

ArchiMate® Part 1

- Multiple-choice
- 40 questions/60 minutes
- Supervised
- No Open Book

ArchiMate® Part 2

- Complex multiple-choice
- scenario-based
- 8 questions/90 minutes
- Supervised
- Open Book

Cursusinhoud:

- Course introduction
 - Basic Concepts and Definitions of ArchiMate® language
 - Language Structure
 - Generic Metamodel
 - Modeling relationships
 - Motivation Modeling
- Strategy Modeling
 - The business layer
 - The application layer
 - The technology layer
 - Physical Elements
 - Modeling cross-layer dependencies
- The implementation and migration extension
 - ArchiMate® viewpoints and views
 - Language Customization Mechanisms
 - ArchiMate® Examination Program
 - Course summary
