

## PowerHA SystemMirror 7 Advanced Configuration

Cursusduur: 5 Dagen    Cursuscode: AN62G    Trainingsmethode: Class Connect

### Beschrijving:

This course is designed to teach experienced PowerHA SystemMirror for AIX professionals the latest features in PowerHA SystemMirror. It covers how to: Effectively administer and monitor an IBM PowerHA SystemMirror for AIX cluster Implement PowerHA SystemMirror for AIX's more complex options

#### Class Connect™

Met Class Connect worden klaslokalen virtueel met elkaar verbonden. Class Connect biedt u de mogelijkheid om een training klassikaal op afstand bij te wonen in een Global Knowledge locatie bij u in de buurt. Een hoge kwaliteitsverbinding (HD audio en video) tussen de klaslokalen garandeert de cursisten een maximale interactie met de docent en met elkaar. Samen met uw medecursisten ziet u de docent en de andere cursisten op een groot scherm alsof u er zelf bijzit.

### Doelgroep:

This course is designed for experienced AIX system administrators and support personnel who are responsible for the administration, maintenance, and implementation of PowerHA SystemMirror clusters on IBM Power Systems running AIX. This audience includes: Students who want to learn to work with the PowerHA SystemMirror 7.1 for AIX Students who want to learn about how to implement PowerHA SystemMirror for AIX in complex configurations Technical leaders responsible for designing PowerHA SystemMirror for AIX clustering solutions

### Doelstelling:

- Review fundamental PowerHA SystemMirror for AIX concepts and components
- Create four node clusters with two independent resource groups
- Create and test robust application start and stop scripts
- Create and test custom application monitors
- Create resource group dependencies
- Customize event notifications
- Integrate WPAR and DLPAR with applications under PowerHA control
- Integrate applications into PowerHA using Smart Assists
- Determine the status of the cluster and cluster components using PowerHA/SNMP commands
- Manage the cluster using the IBM Systems Director plug-in

### Vereiste kennis en vaardigheden:

You should have experience with installing **and** performing standard PowerHA SystemMirror for AIX configuration functions, which can be obtained through the following course (**or** equivalent experience):

- PowerHA SystemMirror for AIX System Administration I: Planning and Implementation (AN61G)*

You should also be familiar with:

- The AIX operating system
- The IBM server hardware that they are using
- The principles of good system management
- TCP/IP communications concepts and tools, as covered in (AN12G) **or** (AN14G) briefly
- Logical Volume Manager (LVM) concepts and configuration, as covered in (AN12G) **or** (AN14G)

## Cursusinhoud:

### Day 1

- Welcome
- Unit 1 Topic 1: PowerHA review
- Unit 1 Topic 2: Advanced administration: Topology and CSPOC features
- Exercise 1: Lab setup, cluster review, topology, and C-SPOC administration

### Day 2

- Unit 2 Topic 1: Adding applications manually
- Unit 2 Topic 2: Adding applications using a Smart Assist
- Exercise 2 Part 1: Manually adding an application
- Exercise 2 Part 2: Adding an application using a Smart Assist

### Day 3

- Unit 3: Advanced administration: Resources and resource groups
- Exercise 3 Part 1: Implementing resource group dependencies
- Exercise 3 Part 2: Adding application monitors

### Day 4

- Unit 4: Determining cluster status using the command line interface
- Unit 5: Advanced administration: Event configuration
- Exercise 4: Determining cluster status using command line
- Exercise 5: PowerHA for AIX event configuration

### Day 5

- Unit 6: Advanced administration: DLPAR and WPAR implementation
- Unit 7: Determining cluster status using the IBM Systems Director
- Exercise 6: Implementing DLPAR and WPAR
- Exercise 7: Implementing the PowerHA IBM Systems Director plug-in
- Open lab time

---
