

Effective RACF Administration

Duration: 4 Days **Course Code: BE87G** **Delivery Method: Maatwerk**

Overview:

Practical online course shows how to plan and implement RACF to secure and protect the resources of an OS/390 system includes CICS, IMS and DFSMS environments.

Maatwerk

Global Knowledge biedt zowel standaard- als maatwerk cursussen die zijn afgestemd op uw wensen en die als besloten cursus op uw eigen locatie of onze locatie gevolgd kunnen worden.

Target Audience:

Personnel with responsibility for implementing and maintaining a RACF security system.

Objectives:

- On completion, you will be able to:
- Identify the security requirements of a system
- Use RACF to protect resources
- Define users and resources to the system
- Set up a RACF group structure
- Use the RACF Report Writer
- Select options to tailor RACF
- Administer the system to meet the installation's security goals
- Develop a suitable implementation plan.

Prerequisites:

Introduction to OS/390 System Services (ES05GB) or equivalent and some practical experience of working in an OS/390 environment.

Content:

- Protection of OS/390 system facilities
- Implementation strategy
- Defining groups and users
- Protecting data sets, tape volumes and general resources
- Controlling CICS, IMS and DFSMS environments
- Exits and utilities
- DSMON monitor program
- RACF report writer
- Protection of JES facilities.
