Effective RACF Administration

Duration: 4 Days   Course Code: BE87G   Delivery Method: Virtueel & Klassikaal

Overview:

Practical online course shows how to plan and implement RACF to secure and protect the resources of an OS/390 system includes CICS, IMS and DFSMS environments.

Virtueel en Klassikaal™

Virtueel en Klassikaal™ is een eenvoudig leerconcept en biedt een flexibele oplossing voor het volgen van een klassikale training. Met Virtueel en Klassikaal™ kunt u zelf beslissen of u een klassikale training virtueel (vanuit huis of kantoor)of fysiek op locatie wilt volgen. De keuze is aan u! Cursisten die virtueel deelnemen aan de training ontvangen voor aanvang van de training alle benodigde informatie om de training te kunnen volgen.

Target Audience:

Personnel with responsibility for implementing and maintaining a RACF security system.

Objectives:

- On completion, you will be able to:
- Identify the security requirements of a system
- Use RACF to protect resources
- Define users and resources to the system
- Set up a RACF group structure
- Use the RACF Report Writer
- Select options to tailor RACF
- Administer the system to meet the installation's security goals
- Develop a suitable implementation plan.

Prerequisites:

Introduction to OS/390 System Services (ES05GB) or equivalent and some practical experience of working in an OS/390 environment.

Content:

- Protection of OS/390 system facilities
- Implementation strategy
- Defining groups and users
- Protecting data sets, tape volumes and general resources
- Controlling CICS, IMS and DFSMS environments
- Exits and utilities
- DSMON monitor program
- RACF report writer
- Protection of JES facilities.
