This course is intended for personnel responsible for day-to-day administration and management of Commvault® software.

Examens en certificering

Commvault® Certification Program

Commvault's Certification Program validates expertise and advanced knowledge in topics, including Commvault Professional, Engineer and Master-level technologies. Certification is a valuable investment for both a company and the IT professional. Certified personnel can increase a company's productivity, reduce operating costs, and increase potential for personal career advancement.

Commvault's Certification Program offers Professional-level, Engineer-level, and Master-level certifications. This Program provides certification based on a career path, and enables advancement based on an individual's previous experience and desired area of focus. It also distinguishes higher-level certifications such as Engineer and Master from lower-level certification as a verified proof of expertise.

Commvault Certified Professional 2020

- Commvault Professional Foundations exam

- Commvault Professional Advanced exam

Passing both is required for Professional certification

Commvault Certified Engineer

- Commvault Engineer exam

Commvault Certified Master
