

DevOps Institute: DevOps Foundation (DOFD)® - Including Exam

Cursusduur: 2 Dagen Cursuscode: DEVOPSF Trainingsmethode: Virtueel & Klassikaal

Beschrijving:

This course is an introduction to DevOps. The course emphasizes communication, collaboration, integration, and automation to improve the workflow between developers and IT operations professionals. Improved workflows lead to more opportunities to design software and services in a more agile fashion which can only be good for customers.

This course (based on the DevOps Institute syllabus) is intended as a basis for discovering the most important DevOps concepts and to understand the principles and methods behind this. The course will leave you with the inspiration to be the advocate of change; The idea is that what you have learned about DevOps - and continue to learn - is shared with others so that you can guide them.

Virtueel en Klassikaal™

Virtueel en Klassikaal™ is een eenvoudig leerconcept en biedt een flexibele oplossing voor het volgen van een klassikale training. Met Virtueel en Klassikaal™ kunt u zelf beslissen of u een klassikale training virtueel (vanuit huis of kantoor) of fysiek op locatie wilt volgen. De keuze is aan u! Cursisten die virtueel deelnemen aan de training ontvangen voor aanvang van de training alle benodigde informatie om de training te kunnen volgen.

Doelgroep:

The course is aimed at: -
Those engaged in IT development, IT operations and IT service management.

Individuals wishing to have detailed understanding of the principles of DevOps

IT professionals working in an Agile environment or will do, and who need a detailed understanding of the interaction between Agile and DevOps

Individuals who want to understand the cultural changes DevOps entails
