

Amazon Quick for AI-Powered Productivity and Business Intelligence (AQAPBI)

Cursusduur: 1 Dag Cursuscode: GK910038 Version: 1.0.2

Beschrijving:

Learn how to use Amazon Quick to analyze data, organize knowledge, build AI chat agents, and automate workflows. Hands-on labs help you apply AI-powered productivity and BI skills in your organization.

You will learn how to use Quick to work more efficiently with data and enterprise information sources. You will learn how to navigate the Amazon Quick workspace and visualize and analyze data with Quick Sight. You will also organize knowledge resources in Quick Spaces, build custom AI chat agents, and automate workflows with Quick Flows. Hands-on labs reinforce each major topic, giving you the practice needed to apply these skills in your organization.

Updated August 2026
