

ITIL® 4 Practitioner: Deploy Management - Inclusief Examen

Cursusduur: 1 Dag Cursuscode: ITIL4P-PIC-DM Trainingsmethode: Virtueel & Klassikaal

Beschrijving:

This 1-day ITIL® 4 Practitioner: Deploy Management Practice module focuses on providing the candidates with the understanding of the key concepts, principles, value and challenges of the Deployment Management Practice. It is intended to provide candidates with best practice guidance on how to move new or changed hardware, software, documentation, processes, or any other component to live environments.. The ITIL 4 Deployment Management Practice module is structured and aligned around the ITIL framework. The examination is intended to assess whether the candidate can demonstrate sufficient understanding and application of the concepts covered in the ITIL 4 Deployment Management Practice publication.

Virtueel en Klassikaal™

Virtueel en Klassikaal™ is een eenvoudig leerconcept en biedt een flexibele oplossing voor het volgen van een klassikale training. Met Virtueel en Klassikaal™ kunt u zelf beslissen of u een klassikale training virtueel (vanuit huis of kantoor) of fysiek op locatie wilt volgen. De keuze is aan u! Cursisten die virtueel deelnemen aan de training ontvangen voor aanvang van de training alle benodigde informatie om de training te kunnen volgen.

Doelgroep:

This practice module is for IT professionals who want to prove and validate their skills in this specific practice area.
