

ITIL® (Version 5) Managing Professional Transition - Including Exam

Cursusduur: 5 Dagen Cursuscode: ITIL5MPT Trainingsmethode: Virtual Learning

Beschrijving:

ITIL Managing Professional Transition (Version 5) is a transition module designed for candidates who hold either the ITIL 4 Managing Professional or ITIL v3 Expert designation. It provides a fast-track route for experienced ITIL professionals to transition to ITIL (Version 5) without completing all modules individually.

ITIL Managing Professional Transition (Version 5) consolidates key concepts from the following ITIL (Version 5) modules:

- ITIL Experience (Version 5) - **integrates human experience** into the **design and delivery of digital products and services**. It recognizes that functional success alone is not enough; **how services** are **perceived, trusted, and engaged** with directly **influences** the **value** they **create**.

- ITIL Product (Version 5) - ITIL Product provides **guidance** for organizations involved in the **creation** and **continual improvement** of **digital products** across the **digital product and service lifecycle**.

- ITIL Service (Version 5) - explores how organizations **design, build, deliver, support, and continually improve services** in order to **create value for stakeholders**.

- ITIL Transformation (Version 5) - guide organizations through **enterprise-wide transformation**. Designed to bridge the gap between ambition and realisation - from defining strategic intent to delivering measurable business outcomes.

The courseware and exam are currently only available in English.
