

Empower your workforce with Copilot for Microsoft 365 Use Cases (MS-4004)

Cursusduur: 1 Dag Cursuscode: M-MS4004 Trainingsmethode: Virtueel & Klassikaal

Beschrijving:

In the course "Empower your workforce with Microsoft 365 Copilot Use Cases", students perform a series of hands-on exercises involving ten Use Cases - Executives, Sales, Marketing, Finance, IT, HR, Operations, Communications, Customer Service, and Legal. These exercises focus on using Copilot in various Microsoft 365 apps (such as OneNote, Word, PowerPoint, Outlook, and so on) to complete a series of common business-related tasks pertaining to each Use Case.

NB: To complete the Use Case exercises in this course, each student must have access to a Microsoft 365 subscription (BYOS) in which they're licensed to use Microsoft 365 Copilot.

Each student must also have a Microsoft OneDrive account, since Copilot requires OneDrive to complete the file sharing tasks used throughout the Use Case exercises.

This course has been created by Microsoft as a "Bring Your Own Environment" course, allowing individuals to use their personal devices and settings. If a student wants to complete the hands-on activities, the individual must bring their own CoPilot environment. Otherwise, demonstrations and lectures will be conducted by the instructor.

Updated March 2026

Virtueel en Klassikaal™

Virtueel en Klassikaal™ is een eenvoudig leerconcept en biedt een flexibele oplossing voor het volgen van een klassikale training. Met Virtueel en Klassikaal™ kunt u zelf beslissen of u een klassikale training virtueel (vanuit huis of kantoor) of fysiek op locatie wilt volgen. De keuze is aan u! Cursisten die virtueel deelnemen aan de training ontvangen voor aanvang van de training alle benodigde informatie om de training te kunnen volgen.

Doelgroep:

This course "Empower your workforce with Microsoft 365 Copilot Use Cases" is targeted towards business users who want to enhance their Microsoft 365 Copilot skills to solve business-related use case scenarios.

Doelstelling:

- Students will learn to:
- Work with various Microsoft 365 Copilot Use Cases
- Apply Microsoft 365 Copilot to perform tasks and solve problems across a panel of business roles, including sales, finance, IT, and HR.
- Use Copilot within Microsoft 365 applications like OneNote, Word, Excel, PowerPoint, Outlook, and Teams to enhance productivity and streamline workflows.
- Analyze data, generate reports, create presentations, and develop strategic plans with the assistance of Copilot.
- Build and refine custom Copilot agents to address specific business needs, such as creating self-service tools and automating information retrieval.

Vereiste kennis en vaardigheden:

IMPORTANT: Before attending this course, you should be familiar with how Microsoft 365 Copilot works across M365 applications, including Copilot Chat and Copilot Agents.

- Students should have basic functional experience with Microsoft 365 services.
- Students should have a basic understanding of Copilot.
- Students must have a proficient understanding of general IT practices.
- Students must have access to a Microsoft 365 subscription (BYOS) in which they're licensed to use Microsoft 365 Copilot.
- Students must also have a Microsoft OneDrive account, since

Examens en certificering

■

Copilot requires OneDrive to complete the file sharing tasks used throughout the Use Case exercises.
