

Palo Alto Networks: Prisma SD-WAN: Design and Operation (EDU-238)

Cursusduur: 5 Dagen Cursuscode: PAN-EDU-238 Version: 6.5.2 Trainingsmethode: Virtual Learning

Beschrijving:

Configure, operate, and troubleshoot Palo Alto Networks next-generation Prisma SD- WAN solution.

The Prisma SD-WAN Design and Operation course introduces you to Palo Alto Networks next-generation Prisma SD- WAN solution, the capability and value it provides over legacy WAN and SD-WAN implementations, and how to configure, operate, and troubleshoot the solution. Successful completion of this five-day, instructor-led course will help enhance your understanding of how to design, implement, and effectively operate a Prisma SD- WAN solution.

You will get hands-on experience configuring Prisma SD-WAN with a branch and datacenter, configure policies, and use Prisma SD-WAN services.

Updated August 2026

Doelgroep:

This course is intended for people who must configure, maintain, and use wide-area networks that connect data centers, branch offices, and cloud-based assets and infrastructures, like:

- Network engineers and architects
- Network administrators and NOC administrators
- Network security engineers

Doelstelling:

- Upon completion of this training, participants will be able to:
- Design, deploy, and effectively operate a Prisma SD-WAN solution
- Configure Prisma SD-WAN in an environment comprising a branch office and a data center
- Configure policies tailored to connectivity and network management needs
- Use Prisma SD-WAN services and gain hands-on experience with their implementation and administration

Vereiste kennis en vaardigheden:

- Basic knowledge (1+ years) of routing and switching, including Border Gateway Protocol (BGP)
- Experience deploying and operating WANS, and use of network monitoring tools such as LiveAction, Netscout, and Splunk
- Experience with DNS, DHCP, and IP management tools
- Familiarity with scripting and APIs as they relate to network automation

Examens en certificering

This course leads to the certification **Palo Alto Networks Certified SD-WAN Engineer**.

Exam voucher is not included in the training price.

Vervolg cursussen:

- **Prisma Access SSE: Configuration and Deployment (PAN-PASSECD)** : Deeply explores Secure Access Service Edge (SASE) implementation, building directly on the SD-WAN and cloud integration concepts introduced in EDU-238.
- **Palo Alto Firewall Essentials: Configuration and Management (PAN-EDU210)** : Strengthens core next-generation firewall administration skills if your background is heavily weighted on the WAN side.
- **Palo Alto Firewall: Troubleshooting (PAN-EDU330)** : Enhances diagnostic and analytical skills for complex multi-branch and security deployments

Cursusinhoud:

- Solution Overview
- Branch Design
- Routing
- Policy Module #1 - Application Path and QoS Policy
- Policy Module #2 - NAT, ZBFW and Security
- Event Policy Management Services
- DNS and DHCP Services
- Operations and Troubleshooting
- CloudBlades
- Integrating Prisma SD-WAN and Prisma Access for SASE Implementation
- DevOps
- Next Steps
