

Palo Alto Networks: Prisma SD-WAN: Design and Operation (EDU-238)

Cursusduur: 5 Dagen Cursuscode: PAN-EDU-238 Version: 6.5.2 Trainingsmethode: Virtueel & Klassikaal

Beschrijving:

Configure, operate, and troubleshoot Palo Alto Networks next-generation Prisma SD- WAN solution.

The Prisma SD-WAN Design and Operation course introduces you to Palo Alto Networks next-generation Prisma SD- WAN solution, the capability and value it provides over legacy WAN and SD-WAN implementations, and how to configure, operate, and troubleshoot the solution. Successful completion of this five-day, instructor-led course will help enhance your understanding of how to design, implement, and effectively operate a Prisma SD- WAN solution.

You will get hands-on experience configuring Prisma SD-WAN with a branch and datacenter, configure policies, and use Prisma SD-WAN services.

Updated August 2026

Virtueel en Klassikaal™

Virtueel en Klassikaal™ is een eenvoudig leerconcept en biedt een flexibele oplossing voor het volgen van een klassikale training. Met Virtueel en Klassikaal™ kunt u zelf beslissen of u een klassikale training virtueel (vanuit huis of kantoor) of fysiek op locatie wilt volgen. De keuze is aan u! Cursisten die virtueel deelnemen aan de training ontvangen voor aanvang van de training alle benodigde informatie om de training te kunnen volgen.

Doelgroep:

This course is intended for people who must configure, maintain, and use wide-area networks that connect data centers, branch offices, and cloud-based assets and infrastructures, like:

- Network engineers and architects
- Network administrators and NOC administrators
- Network security engineers

Doelstelling:

- Upon completion of this training, participants will be able to:
- Design, deploy, and effectively operate a Prisma SD-WAN solution
- Configure Prisma SD-WAN in an environment comprising a branch office and a data center
- Configure policies tailored to connectivity and network management needs
- Use Prisma SD-WAN services and gain hands-on experience with their implementation and administration

Vereiste kennis en vaardigheden:

- Basic knowledge (1+ years) of routing and switching, including Border Gateway Protocol (BGP)
- Experience deploying and operating WANS, and use of network monitoring tools such as LiveAction, Netscout, and Splunk
- Experience with DNS, DHCP, and IP management tools
- Familiarity with scripting and APIs as they relate to network automation

Examens en certificering

This course leads to the certification **Palo Alto Networks Certified SD-WAN Engineer**.

Exam voucher is not included in the training price.

Vervolgcurcussen:

- **Prisma Access SSE: Configuration and Deployment (PAN-PASSECD)** : Deeply explores Secure Access Service Edge (SASE) implementation, building directly on the SD-WAN and cloud integration concepts introduced in EDU-238.
- **Palo Alto Firewall Essentials: Configuration and Management (PAN-EDU210)** : Strengthens core next-generation firewall administration skills if your background is heavily weighted on the WAN side.
- **Palo Alto Firewall: Troubleshooting (PAN-EDU330)** : Enhances diagnostic and analytical skills for complex multi-branch and security deployments

Cursusinhoud:

- Solution Overview
- Branch Design
- Routing
- Policy Module #1 - Application Path and QoS Policy
- Policy Module #2 - NAT, ZBFW and Security
- Event Policy Management Services
- DNS and DHCP Services
- Operations and Troubleshooting
- CloudBlades
- Integrating Prisma SD-WAN and Prisma Access for SASE Implementation
- DevOps
- Next Steps
