

Privacy & Data Protection Practitioner + examen

Cursusduur: 3 Dagen Cursuscode: PDPP-EXIN

Beschrijving:

With the ever increasing explosion of information flooding the internet, every company needs to plan how to manage and protect privacy of persons and their data. Not without a reason, many new laws - in the EU as well as in the USA and many other regions - are being formed in order to regulate both. The European Commission has just published the EU General Data Protection Regulation (GDPR), meaning that all organizations concerned need to comply with specific rules. This Practitioner certification builds on the subjects covered by the Foundation exam by focusing on the development and implementation of policies and procedures in order to comply with existing and new legislation, application of privacy and data protection guidelines and best practices, and by establishing a Data and Privacy Protection Management System.

Doelgroep:

This Practitioner level certification will be particularly useful to Data Protection Officers (DPOs) / Privacy Officers, Legal / Compliance Officers, Security Officers, Business Continuity Managers, Data Controllers, Data Protection Auditors (internal and external), Privacy Analyst and HR managers.

Doelstelling:

- The student understands
 - the phases of the Data Protection Management System (DPMS)
 - the purpose of the data protection/privacy policies within an organization
 - the theory of an action plan for data protection awareness
 - data protection by design and by default
 - the criteria for a data protection impact analysis (DPIA)
 - the roles of the controller and processor
 - the steps of a data protection impact analysis (DPIA)
 - the role and responsibilities of a data protection officer (DPO)
 - the GDPR requirements with regard to the personal data breaches
 - The student can apply
 - the requirements for notification
-

Vereiste kennis en vaardigheden:

■
