
PRINCE2 Foundation + examen

Cursusduur: 0 Dagen Cursuscode: PRI2F Trainingsmethode: e-Learning

Beschrijving:

The aim of this training is to provide delegates with a fundamental understanding of the PRINCE2® project management method, and help delegates to prepare for the PRINCE2® Foundation examination at the end of this course. The course follows the standard syllabus issued by the PRINCE2® Examinations Board, which focuses on the PRINCE2® framework and how this might be applied pragmatically to real projects. PRINCE2® has established itself as the premier approach to managing projects. PRINCE2® is generic - capable of being applied to any kind of project - scaleable and business-driven. Organisations that have adopted the PRINCE2® have claimed that they have been able to achieve greater customer satisfaction during and at the end of projects, to reduce costs and to realise greater benefit from project deliverables.
The duration is approximately 8 hrs.
Access to the course is granted for 365 days.
