Masterclass: PowerShell Advanced

Cursusduur: 2 Dagen **Cursuscode: PSA** **Trainingsmethode: Virtual Learning**

Beschrijving:

This intense, 2-day long practical training will provide you with the advanced knowledge and expert skills essential for using PowerShell. It will cover lots of advanced, key features like Proxy Functions, .NET, PowerShell workflows and many more. During this training you will spend more than 80% of the course time working on PowerShell engine so that you will build some advanced scripts, which you can immediately use in your daily work!
This course is delivered by one of the best people in the market in the security field – with practical knowledge from tons of successful projects and with great teaching skills. The course contents are based on the author's more than 15 years of real-world experience working with PowerShell.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Doelgroep:

Experienced PowerShell Scripters and everyone who wants to learn how to more efficiently work with PowerShell. This training requires existing solid and practical knowledge in using PowerShell.

Vereiste kennis en vaardigheden:

Examens en certificering

What is wonderful about our certification is that it is lifetime valid with no renewal fees – the technology changes, but fundamentals and attitude remain mostly the same. Our Virtual Certificates, which entitle you to collect CPE Points, are issued via Accredible.

Cursusinhoud:

MODULE 1

- Advanced Scripting

MODULE 2

- Advanced Functions

MODULE 3

- User Interface Programming

MODULE 4

- Remote Administration

MODULE 5

- Collaboration (Repositories)

Extra informatie:

Unique exercises:
All exercises are based on PowerShell. During the course you will spend more than 80% of the course time working on PowerShell engine. The course comes with tons of practical exercises to be performed on our lab environment and author's presentation slides.

Platform and Technical Requirements:
To participate in the course you need a Stable internet connection. For best learning experience we also need you to have a webcam, headphones and a microphone. Open RDP port 3391 for the connection to the Lab environment is needed as well. We will setup a secure Zoom classroom for every day of the course – we will send you a safe link to join the conference by e-mail.
