Project Logistics Control in SAP S/4HANA

Cursusduur: 5 Dagen **Cursuscode: S4122** **Trainingsmethode: Maatwerk**

Beschrijving:

This course introduces you to the key logistics business processes within the SAP S/4HANA Project Logistics Control (Project System) application. Through instructor lectures and demonstrations balanced with extensive system exercises you will gain a thorough understanding of how SAP S/4HANA Project Logistics Control (Project System) can support the management of simple and complex projects within your organization. You will also learn the most important configuration settings for logistics projects.
