

Project Controlling in SAP S/4HANA Project System

Cursusduur: 5 Dagen Cursuscode: S4123 Trainingsmethode: Maatwerk

Beschrijving:

This course introduces you to the key management accounting business processes within the SAP S/4HANA Project Control (Project System) application. Through instructor lectures and demonstrations balanced with extensive system exercises you will gain a thorough understanding of how SAP S/4HANA Project Control (Project System) can support the management of simple and complex projects within your organization. You will also learn the most important configuration settings for cost controlling and logistics projects.
