

Implementing SAP S/4HANA Cloud Private Edition

Cursusduur: 3 Dagen Cursuscode: S4C03 Trainingsmethode: Virtual Learning

Beschrijving:

This course guides learners through the fundamental requirements and knowledge necessary for customer project team key users, IT Professionals, Solution Architects, and Project Managers who are beginning their journey into RISE with SAP S/4HANA Cloud, private edition implementations. Focus will be on key SAP Activate driven concepts to give learners an opportunity to explore RISE with SAP S/4HANA Cloud, private edition best practices, a sampling of solution area scope overviews, learning data migration for RISE with SAP S/4HANA Cloud, private edition, as well as fundamental product configuration and UI extensibility. There are hands-on exercises and demonstrations to give learners the opportunity to practice on a live training environment.

After attending this course, you can augment your learning by joining the SAP S/4HANA Cloud Implementation Learning Room and take advantage of the live sessions across fundamentals, cross-topics and lines of business deep dive topics. You will need a valid subscription to the SAP Learning Hub SAP S/4HANA Cloud solution edition to take advantage of live sessions and any digital content.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.
