

## Intermediate ABAP Programming

**Cursusduur: 5 Dagen    Cursuscode: S4D401    Trainingsmethode: Virtual Learning**

---

### Beschrijving:

This course follows on from the Basic ABAP Programming course. In it, you will use analysis and test tools to investigate ABAP code. You will then learn various techniques that you can use to improve the performance, style, and structure of your code.

#### Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.
