

ServiceNow Security Incident Response (SIR) Implementation

Cursusduur: 2 Dagen Cursuscode: SNSIRI Trainingsmethode: Virtual Learning

Beschrijving:

Learn the domain knowledge, technical aspects, and various processes needed to effectively manage a Security Incident Response implementation (SIRI).

This two-day course covers the domain knowledge, common implementation technical aspects, and various processes needed to effectively manage a Security Incident Response implementation (SIRI).

Attendees will learn and practice various tactical skills and strategies that will better prepare them to implement Security Incident Response (SIR). Through lectures, group discussion, hands-on labs and simulations, participants build on existing knowledge and skills by applying implementation best practices.

Virtueel en Klassikaal™

Virtueel en Klassikaal™ is een eenvoudig leerconcept en biedt een flexibele oplossing voor het volgen van een klassikale training. Met Virtueel en Klassikaal™ kunt u zelf beslissen of u een klassikale training virtueel (vanuit huis of kantoor) of fysiek op locatie wilt volgen. De keuze is aan u! Cursisten die virtueel deelnemen aan de training ontvangen voor aanvang van de training alle benodigde informatie om de training te kunnen volgen.

Doelgroep:

This course is suitable for anyone who will be working on a ServiceNow implementation of the Security Incident Response applications. Examples, include: Technical Consultants and Administrators who will be configuring, developing or supporting the Security Incident Response applications; Project/Program/Engagement Managers who will be leading implementation of Security Incident Response applications in ServiceNow; Operations Managers who have oversight of work which will be facilitated using Security Incident Response applications in ServiceNow

Doelstelling:

- Course topics include:
 - Security Incident Response Overview
 - Create Security Incidents
 - Security Incident and Threat Intelligence Integrations
 - Security Incident Response Management
 - Risk Calculations and Post Incident Response
 - Security Incident Automation
 - Data Visualization
 - Family Delta Module
 - Capstone Project
-

Vereiste kennis en vaardigheden:

- SNF - ServiceNow Fundamentals + Examen
- SNPI - ServiceNow Platform Implementation
- SNSOF - ServiceNow Security Operations (SecOps) Fundamentals

Examens en certificering

ServiceNow requires the completion of prerequisite training course(s) in preparation for the Certified Implementation Specialist - Security Incident Response exam (CIS-SIR). Information provided in the following ServiceNow training course(s) contain source material for the exam.
