HTML & CSS are the fundamental building blocks of the web. This course is designed to provide delegates with the kn

Virtueel en Klassikaal™

Virtueel en Klassikaal™ is een eenvoudig leerconcept en biedt een flexibele oplossing voor het volgen van een klassikale training. Met Virtueel en Klassikaal™ kunt u zelf beslissen of u een klassikale training virtueel (vanuit huis of kantoor) of fysiek op locatie wilt volgen. De keuze is aan u! Cursisten die virtueel deelnemen aan de training ontvangen voor aanvang van de training alle benodigde informatie om de training te kunnen volgen.

Doelgroep:

Who will the Course Benefit?

The Modern,Responsive Websites with HTML & CSS course is aimed at those who are new or have had little exposure to HTML & CSS and who will be responsible for building and/or maintaining websites. It may also be of value to those who wish to refresh/renew their knowledge on the subject after some time away from it.

Doelstelling:

- Course Objectives
 - This course aims to provide delegates with the skills and knowledge necessary to construct stylish and responsive HTML pages that exploit all the core HTML elements including text elements,hyperlinks,multimedia,tables,and forms. Delegates should also be able to style and lay out said elements exploiting a solid understanding of CSS concepts and core CSS properties.
-

Vereiste kennis en vaardigheden:

- Delegates need only possess basic computing skills - navigate the filesystem,create and edit files and surf the web.
-

Vervolg cursussen:

Further Learning

- Introduction to Programming - JavaScript
 - Core JavaScript
 - JavaScript Developer
-
