

HP-UX Introduction

Cursusduur: 3 Dagen **Cursuscode: HI** **Trainingsmethode: Maatwerk**

Beschrijving:

HP-UX Introduction Course Overview

This Hewlett Packard HP-UX Operating System training course introduces the delegate to the main concepts of the HP-UX Operating System. The most commonly used commands and utilities are described in detail as are the command line wildcard and redirection facilities.

The course discusses the mechanisms by which a user acquires a login environment and the main features of the Korn/Posix/Bash Shells are introduced.

Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.

Maatwerk

Global Knowledge biedt zowel standaard- als maatwerk cursussen die zijn afgestemd op uw wensen en die als besloten cursus op uw eigen locatie of onze locatie gevolgd kunnen worden.

Doelgroep:

Who will the Course Benefit?

Anyone who needs to understand and use the HP-UX Operating System.

There are no formal pre-requisites, although an understanding of and exposure to information technology is advantageous.

Doelstelling:

Course Objectives

- To provide the skills needed to work productively in the HP-UX environment.
-

Vereiste kennis en vaardigheden:

- There are no formal pre-requisites for this HP-UX Introduction training course, although an understanding of and exposure to information technology and an understanding of operating systems is required.
-

Vervolg cursussen:

Further Learning

- HP-UX Shell Programming
 - Oracle SQL
 - Linux Networking
-

Cursusinhoud:

HP-UX Introduction Training Course Course Contents - DAY 1

Course Introduction

- Administration and Course Materials
- Course Structure and Agenda
- Delegate and Trainer Introductions

Session 1: INTRODUCTION TO THE HP-UX OPERATING SYSTEM
