

Mastering Virtual I/O Server Upgrades

Cursusduur: 1 Dag Cursuscode: AN38G Trainingsmethode: Virtual Learning

Beschrijving:

This instructor led course teaches students how to perform Virtual I/O Server (VIOS) upgrades.

Students will learn how to upgrade to the latest version of the VIOS, version 4.1. They will explore the various options available for upgrading a VIOS. In the hands-on labs students will use the viosupgrade utility to upgrade a VIOS.

Updated 20/9/2026

Virtueel en Klassikaal™

Virtueel en Klassikaal™ is een eenvoudig leerconcept en biedt een flexibele oplossing voor het volgen van een klassikale training. Met Virtueel en Klassikaal™ kunt u zelf beslissen of u een klassikale training virtueel (vanuit huis of kantoor) of fysiek op locatie wilt volgen. De keuze is aan u! Cursisten die virtueel deelnemen aan de training ontvangen voor aanvang van de training alle benodigde informatie om de training te kunnen volgen.

Doelgroep:

This course is designed for system administrators responsible for managing and maintaining Virtual I/O Server (VIOS) environments, IT professionals who need to upgrade VIOS to version 4.1 or learn about VIOS upgrade processes, technical staff involved in IBM Power server virtualization who want hands-on experience with the viosupgrade utility, and individuals with basic knowledge of VIOS or virtualization concepts who seek to deepen their understanding of VIOS upgrade procedures.

Doelstelling:

- | | |
|--|---|
| ■ After this course participants should be able to: | ■ Discuss best practices for upgrading a VIOS |
| ■ Describe the Virtual I/O Server upgrade requirements | ■ Describe the process of upgrading a VIOS using the viosupgrade tool |
| ■ Describe different methods available for upgrading a VIOS to version 4.1 | ■ Perform a VIOS upgrade using media |

Vereiste kennis en vaardigheden:

- Students should have basic knowledge of IBM Power Systems, PowerVM virtualization, and Virtual I/O Server (VIOS) administration.
- Familiarity with VIOS command-line operations and virtualized storage and networking is recommended.
