Maximo Application Suite - Manage: Users and Security

Cursusduur: 1 Dag Cursuscode: MAX4327G

Beschrijving:

Learn how to configure and secure Maximo Manage environments by managing user access, labor resources, craft records, calendars, and conditional security settings.

This course provides students with an understanding of how to create new users in Maximo Manage and manage labor, crafts, and calendar records through specialized applications. We will also use conditional expressions and control properties to implement conditional security. There is also hands-on lab exercises using a Red Hat OpenShift MAS Manage environment.

Doelgroep:

Consultants, System Administrators, Support, Sales, Users

Doelstelling:

- **After completing this course, you should be able to:**
- Define these Maximo components: User, People, Security Groups, and Labor
- Describe Manage Labor, Crafts, and Calendar records
- Describe the use of Conditional Expressions
- Show/Hide Screen Controls
- Modify Control Properties
- Implement Conditional Security

Vereiste kennis en vaardigheden:

Participants should have a basic understanding of IBM Maximo Application Suite or Maximo Manage and general system administration concepts. Familiarity with user access management and security principles is recommended.
