

IBM Business Automation Workflow 23.0.2: Introduction to Case Management Solutions

Cursusduur: 1 Dag **Cursuscode: WB879G** **Trainingsmethode: Virtual Learning**

Beschrijving:

This one-day introductory course integrates training in Case Management methods and implementation with IBM Business Automation Workflow (BAW). The course introduces IBM Business Automation Workflow along with its key capabilities. You learn case management concepts, architecture, and the benefits of using IBM Business Automation Workflow on Cloud. You also learn how to manage cases in the BAW Case Client. The course ends with building your first case solution and deploying it.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Doelgroep:

This course is intended for case solution developers of IBM Business Automation Workflow.

Doelstelling:
