FileNet Content Manager 5.6.x: Building and Configuring an Object Store

Cursusduur: 1 Dag **Cursuscode: WF412G**

Beschrijving:

This course provides technical professionals with the needed skills to build and configure an object store. It teaches you how to work with an IBM FileNet Content Manager repository within an IBM Cloud Pak for Business Automation OpenShift environment.
In this course, you will create an object store in the Administration Console for Content Platform Engine and configure it in the Business Automation Navigator administration desktop to make the repository accessible to business users.
Updated 08/2025
