

IBM Tivoli Netcool/Impact 7.1 Administration and Implementation

Cursusduur: 0 Dagen Cursuscode: TN045G Trainingsmethode: e-Learning

Beschrijving:

This course (TN045G in classroom, TOD92G in E-Learning SPVC) teaches students how to deploy and administer IBM Tivoli Netcool/Impact through practice exercises. This course is designed specifically for anyone who might be technically responsible for the design and implementation of Netcool/Impact, a highly scalable analytics engine that adds event and service enrichment and business impact analysis for event data. You should expect exposure to all fundamental elements of Netcool/Impact with a focus on developing policies within the Netcool/Impact product and exploring the features that enhance the visualization, usability, and integration functions. The visualization enhancements are facilitated by the integration of the IBM Dashboard Application Services Hub, which is part of JazzTM for Service Management, and Netcool/Impact features such as the UI data provider.

Doelgroep:

This basic course is for: Implementers Architects Specialists Administrators Support personnel

Doelstelling: Install and configure Netcool/Impact Use logs to verify policy function Write policies using Netcool/Impact policy language (IPL) Use and deploy policies using the wizards Create, update, and edit policies in the Tivoli Integrated Portal Export and restore Netcool/Impact server components Console Create a Jazz for Service Management dashboard using Define Netcool/Impact data sources, data items, and services Netcool/Impact dataAfter you complete this course, you can perform the following tasks: Use logs to verify policy function Install and configure Netcool/Impact Use and deploy policies using the wizards Write policies using Netcool/Impact policy language (IPL) Export and restore Netcool/Impact server components Create, update, and edit policies in the Tivoli Integrated Portal Console Create a Jazz for Service Management dashboard using Netcool/Impact dataAfter you complete this course, you can perform the following tasks: Define Netcool/Impact data sources, data items, and services

Install and configure Netcool/Impact

Write policies using Netcool/Impact policy language (IPL)

Use logs to verify policy function

Use and deploy policies using the wizards

- Create, update, and edit policies in the Tivoli Integrated Portal Console
 - nd edit policies in the Tivoli Integrated Portal Export and restore Netcool/Impact server components
- Create a Jazz for Service Management dashboard using
 Define Netcool/Impact data sources, data items, and services

Vereiste kennis en vaardigheden:

You should have:

- Basic Linux administration skills
- Netcool/OMNIbus administration skills
- Basic scripting skills

Cursusinhoud:

- The Netcool/Impact user interface
- The Netcool/Impact data model
- Policies
- Services
- The Enrichment policy
- Controlling policy execution sequence
- Policy wizards
- Notification policies
- Reports
- Operator views
- Working with web services
- Hibernation, X in Y, and synthetic events
- Event suppression and maintenance window management
- Command-line tools and self-monitoring
- The Netcool/Impact UI data provider
- Server utilities Introduction to IBM Tivoli/Netcool Impact
- The Netcool/Impact user interface
- The Netcool/Impact data model
- Policies
- Services
- The Enrichment policy
- Controlling policy execution sequence
- Policy wizards
- Notification policies
- Reports
- Operator views
- Working with web services
- Hibernation, X in Y, and synthetic events
- Event suppression and maintenance window management
