
VMware Horizon 7: Troubleshooting and Performance Optimization

Cursusduur: 5 Dagen Cursuscode: VMHTPO Version: 7.7

Beschrijving:

During this five-day hands-on VMware Horizon 7: Troubleshooting and Performance Optimization training, you will gain the advanced knowledge, skills, methodology, and abilities to achieve competence in troubleshooting the View component of VMware Horizon® 7. You will increase your skills and competence in using VMware and third-party tools to analyze and solve problems associated with a View implementation. This lab-intensive course provides you with a comprehensive environment to test your skills at identifying and solving a broad range of issues.

Product Alignment: VMware Horizon 7.7vSphere 6

Doelgroep:

Experienced system administrators System integrators responsible for maintaining the View component of VMware Horizon 7

Doelstelling:

- | | |
|---|--|
| ■ By the end of the course, you should be able to meet the following objectives: | ■ Optimize the display protocol and the virtual desktop to ensure an optimal end-user experience |
| ■ Use the Horizon Administrator Web client, log files, and VMware and third-party tools to analyze, diagnose, | ■ Identify infrastructure problems as they relate to View |
| ■ and troubleshoot problems in a View environment | ■ Discuss View installation problems and best practices |
-

Vereiste kennis en vaardigheden:

This class requires understanding the concepts and topics presented in the following courses:

- VMware Horizon 7: Install, Configure, Manage (VMHICM)
 - VMware Data Center Virtualization Fundamentals
- Experience with working with View and VMware vSphere® is helpful.
-

Cursusinhoud:

1 Course Introduction	<ul style="list-style-type: none">• Analyze, diagnose, and troubleshoot virtual desktop problems	<ul style="list-style-type: none">• Discuss the architecture, purpose, and benefits of View Composer
<ul style="list-style-type: none">• Introductions and course logistics• Course objectives	<ul style="list-style-type: none">• Use VMware tools to optimize virtual desktops	<ul style="list-style-type: none">• Analyze, diagnose, and troubleshoot View Composer problems
2 Introduction to Troubleshooting	5 Troubleshooting USB Connectivity and Printing	8 Troubleshooting Instant Clones
<ul style="list-style-type: none">• Discuss troubleshooting techniques• Describe methods for efficient troubleshooting in a consistent and repeatable manner	<ul style="list-style-type: none">• Discuss how View supports connecting USB devices to clients as well as printing to local and remote printers	<ul style="list-style-type: none">• Discuss the architecture, purpose, and benefits of instant clones• Understand how to create and deploy instant-clone desktop pools
3 Troubleshooting Tools	<ul style="list-style-type: none">• Analyze, diagnose, and troubleshoot USB connectivity and printing problems	<ul style="list-style-type: none">• Analyze, diagnose, and troubleshoot instant-clone problems
<ul style="list-style-type: none">• Understand how to use Horizon Administrator to troubleshoot View problems• Understand how to use the command line to troubleshoot View problems• Understand how to use VMware and third-party tools to identify and troubleshoot View problems• Interpret log files	6 Troubleshooting Display Protocols	9 Troubleshooting SSL Certificates
	<ul style="list-style-type: none">• Discuss the topology and architecture of display protocols in View	<ul style="list-style-type: none">• Discuss certificate authority and SSL certificates• Discuss the proper method to install and replace certificate authority and SSL certificates• Analyze, diagnose, and troubleshoot SSL certificate problems
4 Troubleshooting Virtual Desktops	<ul style="list-style-type: none">• Optimize PCoIP and Blast Extreme for performance	10 Infrastructure
	7 Troubleshooting View Composer	<ul style="list-style-type: none">• Discuss how a data center's infrastructure can affect the performance of a View environment■ • Discuss best practices for data center infrastructure for View
