

## Certified Information Privacy Professional/Europe (CIPP/EU)

**Varighet: 2 Days    Kurskode: CIPPE    Opplæringsmetoder: Virtuell opplæring**

### Beskrivelse:

In this course you will gain foundational knowledge on both broad and global concepts of privacy and data protection laws and practice. You will learn common principles and approaches to privacy as well as understand the major privacy models employed around the globe. An introduction to information security concepts and information security management and governance will be covered including frameworks, controls, and identity and access management. You will also learn about online privacy as it relates to using personal information on websites and other internet-related technologies.

This course delves into the context of European data protection law: origins, institutions and legislative framework; data protection concepts, principles and application, including processing criteria, obligations, data subject rights, confidentiality and security, notification requirements, international data transfers, and supervision and enforcement; and European data protection practices related to employment, surveillance, direct marketing and outsourcing.

The CIPP/E designation is accredited under the internationally recognized ANSI/ISO standard 17024:2012, an acknowledgement of the quality and integrity of the programme.

### Virtuell opplæring

V&C Select™ er et veldig enkelt konsept og svært fleksibelt. Du kan delta personlig i klassen eller som virtuell deltaker. Når deres team er geografisk splittet eller du har et begrenset reisebudsjett kan du benytte deg av vår virtuelle klasserom. Kursinneholdet er akkurat det samme som i et vanlig klasserom og deltakerne får en instruktør "live" via internett. Deltaker kan chatte og snakke med sin instruktør og sine medstudenter. Global Knowledge vil sende deg all informasjon du trenger før kurset slik at du kan teste innlogging.

### Målgruppe:

Individuals who need a foundational understanding of information privacy and data protection and those interested in pursuing CIPP/E certification.

### Test og sertifisering

Certified Information Privacy Professional – Europe (CIPP/E)

## Innhold:

### Day One

#### Module 1: Fundamentals of Information Privacy

##### Unit 1: Common Principles and Approaches to Privacy

This unit includes a brief discussion about the modern history of privacy, an introduction to types of information, an overview of information risk management and a summary of modern privacy principles.

##### Unit 2: Jurisdiction and Industries

This unit introduces the major privacy models employed around the globe and provides an overview of privacy and data protection regulation by jurisdictions and by industry sectors.

#### Unit 3: Information Security: Safeguarding Personal Information

This unit presents introductions to information security, including definitions, elements, standards, and threats/vulnerabilities, as well as introductions to information security management and governance, including frameworks, controls, cryptography, and identity and access management (IAM).

#### Unit 4: Online Privacy: Using Personal Information on Websites and with Other Internet-related Technologies

This unit discusses the web as a platform, as well as privacy considerations for sensitive online information, including policies and notices, access, security, authentication, identification and data collection. Additional topics include children's online privacy, email, searches, online marketing and advertising, social media, online assurance, cloud computing, and mobile devices.

### Day Two

#### Module 2: European Privacy

#### Unit 1: Introduction to European Data Protection

This unit introduces the origins and historical context for privacy in Europe, the European regulatory institutions and the legislative framework for current EU data protection law at both the EU and state level.

#### Unit 2: European Data Protection Law and Regulation

This unit takes an in-depth look at data protection concepts, application of the law, data protection principles, legitimate processing criteria, information provision obligations, data subject rights, confidentiality and security, notification requirements, international data transfers, and supervision and enforcement.

#### Unit 3: Compliance with European Data Protection Law and Regulation

This unit examines the employment relationship, surveillance activities, marketing activities, internet technology and communications, and outsourcing.
