

EC-Council Certified Cybersecurity Technician (CCT) + Exam voucher

Duration: 5 Days **Course Code: ECCT**

Overview:

CCT is an entry-level cybersecurity program that is engineered by the creators of the Certified Ethical Hacker program to respond to the global need and demand for cybersecurity technicians. CCT develops foundational multi-disciplinary cybersecurity skills across network defense, ethical hacking, digital forensics, and security operations to kickstart a cybersecurity career. The CCT certification/credential is obtained through a comprehensive performance-based exam that combines live cyber range activities with a variety of knowledge assessments proving a grasp of both the knowledge and applied skills required to be successful in a cyber technician role.

Target Audience:

This course will prepare and enhance skills in the following roles: IT Support Specialist, IT Networking Specialist, Cybersecurity Technicians, Network Administrator, SOC Analyst, Network Engineers, IT Managers, Facility Administrators, Career Starters, Career Changers, and Career Advancers— Students, Recent Graduates/IT Professionals, IT Managers. CCT Course is perfectly designed for anyone who is seeking to kickstart their Professional career journey in the field of Cybersecurity or add a strong foundational understanding of Cyber Security domains, and tactics required to be effective on the job.

Objectives:

- 1. It facilitates your entry into the world of cybersecurity as a cybersecurity technician
- 2. It provides a professional fundamental skill and solidifies the concepts of information security, network security, computer forensics, risk management, and incident handling
- 3. It provides best practices to improve organizational security posture
- 4. It enhances your skills as a cybersecurity specialist and increases your employability
- 5. It provides hands-on practical skills that you will use on the job every day as a cyber security technician, or any role in IT with administrative privileges where security should be considered and practiced.

Prerequisites:

- No specific prerequisites are required for CCT Certification.
- Having knowledge and experience in IT Networking with a CyberSecurity focus can be an advantage.
- Candidates should have knowledge of computers and computer networks prior to challenging the CCT program, though core technologies are covered in the curriculum.

Testing and Certification

CT Exam Details
