

Effective Time Management

Duration: 1 Day **Course Code: GK2948**

Overview:

Project Managers are asked to do more with less faster than ever before. In this short course, you'll learn techniques to help you avoid spending your day in a whirlwind of activity that leaves you exhausted, yet with very little accomplished. You'll learn how to manage priorities, organize your activities, execute without delay, and take back control of your day.

Target Audience:

PMP®-certified project managers, IT project managers, project coordinators, project analysts, project leaders, senior project managers, team leaders, product managers, program managers, project sponsors, and project team members who want to continue to develop their skills and renew their PMP certification.

Objectives:

- At the end of this course delegates will be able to;
 - How to focus
 - Discover your real priorities
 - Set goals related to those priorities
 - Track your progress
 - Key stress management techniques
 - Return productivity and efficiency to your day
-

Prerequisites:

Before attending this course delegates must have the following skills or knowledge before attending this course;

- PMP® certification
- Introduction to Project Management
- IT Risk Management
- Applied Project Management
- PMP® Exam Prep Boot Camp

PMP is a registered mark of the Project Management Institute, Inc.

Content:

Is there really anything new?

- Dr. Samuel Johnson: People "more frequently require to be reminded than informed."

Can you really keep up?

Dealing with procrastination - Do it now!

- "The now habit"

Conflicting advice - why so many choices?

How to discover your real priorities

How to make time for your priorities

- ABC analysis
- Pareto analysis
- Fit
- It's all about three folders: Action, Archive, and Hold
