

ISO/IEC 27002 Information Security Controls Manager (PECB Certified) - Including Exam

Duration: 3 Days Course Code: ISO27002M

Overview:

ISO/IEC 27002 Manager training course provides information on the implementation and management of information security controls based on ISO/IEC 27002.

ISO/IEC 27002 Manager enables participants to acquire the necessary knowledge and skills to support an organization in selecting, implementing, and managing information security controls based on ISO/IEC 27002. The training course provides information that will help participants in gaining a thorough understanding of how information security risks can be treated by selecting relevant controls, especially in the context of an information security management system (ISMS).

A PECB ISO/IEC 27002 Manager certification will enable you to demonstrate your comprehensive knowledge in the implementation and management of information security controls based on industry best practices.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

Target Audience:

This training course is intended for:

- Managers involved in the implementation of an information security management system (ISMS) based on ISO/IEC 27001
- IT professionals and consultants seeking to enhance their knowledge in information security
- Members of an ISMS implementation or information security team
- Individuals responsible for information security in an organization

Objectives:

- By successfully completing this training course, you will be able to:
- Explain the fundamental concepts of information security, cybersecurity, and privacy based on ISO/IEC 27002
- Discuss the relationship between ISO/IEC 27001, ISO/IEC 27002, and other standards and regulatory frameworks
- Support an organization in effectively determining, implementing, and managing information security controls based on ISO/IEC 27002

Prerequisites:

- The main requirements for participating in this training course are having a fundamental understanding of ISO/IEC 27002 and comprehensive knowledge of information security.

Testing and Certification

The "PECB Certified ISO/IEC 27002 Manager" exam meets all the requirements of the PECB Examination and Certification Program (ECP). It covers the following competency domains:

- **Domain 1:** Fundamental principles and concepts of information security, cybersecurity, and privacy
 - **Domain 2:** Information security controls based on ISO/IEC 27002
- After successfully completing the exam, you can apply for the credentials shown below. You will receive a certificate once you comply with all the requirements related to the selected credential.

The requirements are as follows:

PECB Certified ISO/IEC 27002 Provisional Manager

- Exam: PECB Certified ISO/IEC 27002 Manager exam or equivalent
- Professional experience: None
- ISM experience: None

- Other requirements: Signing the PECB Code of Ethics
PECB Certified ISO/IEC 27002 Manager
 - Exam: PECB Certified ISO/IEC 27002 Manager exam or equivalent
 - Professional experience: Two years, including one year of work experience in Information Security Management
 - ISM experience: Information Security Management activities totaling 200 hours
 - Other requirements: Signing the PECB Code of Ethics
- The information security activities should follow best implementation and management practices and include the following:**
- Drafting an ISMS implementation plan
 - Managing an information security implementation project
 - Implementing information security processes
 - Selecting and implementing information security controls

Content:

Day 1: Introduction to ISO/IEC 27002

Day 2: Information assets, people controls, physical controls, and operational security controls

Day 3: Information security incident management and monitoring of information security controls and certification exam

Additional Information:

Educational approach

- This training is based on both theory and best practices used in the implementation and management of information security controls.
- Participants are encouraged to communicate and discuss with each other while partaking in exercises and quizzes.
- The structure of quizzes is similar to that of the certification exam.

General Information

- Certification fees and examination fees are included in the price of the training course.
- Participants will be provided with training material containing over 350 pages of information and practical examples.
- An attestation of course completion worth 21 CPD (Continuing Professional Development) credits will be issued to the participants who have attended the training course.
- Candidates who have completed the training course but failed the exam are eligible to retake it once for free within a 12-month period from the initial date of the exam.
