Develop AI information extraction solutions in Azure (AI-3002)

Duration: 1 Day   Course Code: M-AI3002

Overview:

You'll learn how to build a solution for your custom form types and integrate that solution into an Azure Cognitive Search pipeline. You'll learn how to:
- Design a solution that analyzes your business forms by using Azure AI Document Intelligence.
- Create a solution that analyzes common documents by using Document Intelligence.
- Create a solution that analyses different custom form types by using Document Intelligence.
- Include an Azure AI Document Intelligence service as a custom skill in an Azure Cognitive Search pipeline.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

- Azure Professionals
- Microsoft Professionals

Objectives:

■ In this course you'll learn,

■ Plan an Azure AI Document Intelligence solution

■ Use prebuilt Document intelligence models

■ Extract data from forms with Azure Document Intelligence

■ Create a composed Document intelligence model

Prerequisites:

None

Content:

Module 1: Plan an Azure AI Document Intelligence solution

- Understand AI Document Intelligence
- Plan Azure AI Document Intelligence resources
- Choose a model type

Module 2: Use prebuilt Document Recognizer models

- Understand prebuilt models
- Use the General Document, Read, and Layout models
- Use financial, ID, and tax models
- Exercise - Analyze a document using Azure AI Document Intelligence

Module 3: Extract data from forms with Azure Document Intelligence

- What is Azure Document Intelligence?
- Get started with Azure Document Intelligence
- Train custom models
- Use Azure Document Intelligence models
- Use the Azure Document Intelligence Studio
- Exercise - Extract data from custom forms

Module 4: Create a composed Document intelligence modelUnderstand composed models

- Assemble composed models
- Exercise: Create a composed model
