
Prisma Access SASE Security: Design and Operation (EDU-318)

Duration: 4 Days Course Code: PAN-EDU-318 Version: 4.0

Overview:

The Prisma Access SASE Security: Design and Operation (EDU-318) course describes Panorama Managed Prisma Access Secure Access Service Edge (SASE) and how it helps organizations embrace cloud and mobility by providing network and network security services from the cloud. This course is intended for people in public cloud security and cybersecurity or anyone wanting to learn how to secure remote networks and mobile users.

Target Audience:

Security Engineers, Security Administrators, Security Operations Specialists, Security Analysts, and Network Engineers

Objectives:

- Successful completion of this four-day, instructor-led course will help:
 - You will get hands-on experience configuring, managing, and troubleshooting Prisma Access in a lab environment.
 - Enhance your understanding of how to protect better your applications, remote networks, and mobile users using a SASE implementation.
-

Prerequisites:

- PAN-EDU-210 - Palo Alto Networks: Firewall Essentials: Configuration and Management (EDU-210)
 - PAN-EDU-220 - Palo Alto Networks Panorama :Managing Firewalls at Scale (EDU-220)
-
