

ServiceNow Field Service Management (FSM) Implementation

Duration: 2 Days Course Code: SNFSMI

Overview:

ServiceNow® Field Service Management (FSM) helps companies efficiently manage location-based work tasks. Field Service Management Implementation focuses specifically on field service management applications and related functionality, most of which may be configured during an implementation using a low-code or no-code approach. Field Service Management Implementation provides practical skills to accelerate field service management implementations.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

The ServiceNow® Field Service Management Implementation course is for Customers, Partners, and Employees who implement features, functions, and data associated with field service management.
