

ServiceNow Human Resources (HR) Implementation

Duration: 2 Days **Course Code: SNHRI**

Overview:

Gain in-depth knowledge on configuring the ServiceNow HRSD application. During this two-day interactive training course, attendees will gain in-depth knowledge and practice in configuring the ServiceNow HRSD application. You will access the ServiceNow platform in your own student instance, which is a "sandbox" loaded with demo and test data. Participants will perform the duties of a technical consultant implementing the HRSD solution for a fictitious company. Lab exercises throughout the course allow you to work through real world, relevant scenarios to complete your duties. The class features lecture and group discussions, as well as extensive hands-on practice and reinforcement delivered in a variety of labs.

e-Learning

Interactive self-paced content that provides flexibility in terms of pace, place and time to suit individuals and organisations. These resources also consist of online books, educational podcasts and vodcasts, and video-based learning.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

This course is designed for consultants who need to implement the ServiceNow Human Resources Service Delivery application.

Objectives:

- Discuss the ServiceNow HRSD solution and its capabilities
 - Explore implementation and configuration methodologies for HRSD
 - Gain practical knowledge of the architecture of the HRSD solution
 - Configure HR properties, criteria, PDF document templates, and managed documents
 - Update and manage the HR Service Portal and Chat queue
 - Explore skills and auto-assignment rules
 - Configure a Lifecycle Event as part of enterprise onboarding and transitions
 - Configure Now Mobile
 - Learn about the security options that determine access to HR tables and secure the HRSD application
-

Prerequisites:

- SNF - ServiceNow Fundamentals
- SNPI - ServiceNow Platform Implementation
- SNHRF - ServiceNow Human Resources (HR) Fundamentals

Testing and Certification

Certified Implementation Specialist- HR (CIS-HR)

Content:

Module 1 provides an overview of the HR Service Delivery (HRSD) suite of applications and how they are integrated in the ServiceNow platform. It also details key features of the current release.

Module 2 explores the implementation methodology that is recommended for an HR implementation. ServiceNow provides implementation partners with access to checklists, project plans, and other collateral that may be used as part of the implementation project.

In Module 3, students learn the table structure and schema mapping of the HRSD solution. Participants will explore HR Guided Setup, PDF Document Templates, and Routing and Assignment Rules. Participants create and parse a PDF Document template and add a link to the HR Case form which navigates to a third-party website.

Module 4 explores the Lifecycle Events application. Participants learn how to configure a Lifecycle Event, then they build and test a Lifecycle Event in their practice instance.

Module 5 details the Employee Service Center, Knowledge, and Now Mobile. Participants rebrand the Employee Service Center, expand the search configuration for Knowledge on an HR Case, and configure Now Mobile. They may also choose to configure Connect Chat.

In Module 6, participants learn about the security options available in ServiceNow. Data Governance methods like client-side masking, encryption, ACL security, and Delegated Development are explored at length. Participants use the COE ACL Configuration module to restrict access to a COE, create a business rule to restrict access to a highly secure field on a form, and work with Restricted Caller Access records.

The course concludes with the opportunity for participants to work through the HR Implementation Simulator in the classroom. This allows students to ask the instructor questions as they work or to explore other concepts in more detail.
