

ServiceNow Platform Analytics Advanced

Duration: 2 Days **Course Code: SNPAA**

Overview:

This two-day training builds upon the knowledge obtained in the Platform Analytics Fundamentals course. Here you apply advanced reporting, platform analytics, and application administration skills to take your historic trends and measurements to the next level.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

Objectives:

- Learn how to apply advanced reporting, platform analytics, and application administration skills.
 - Take your historic trends and measurements to the next level.
-

Prerequisites:

- Attendees should have completed the Platform Analytics Fundamentals course (or equivalent) and have some experience with ServiceNow; advanced experience is not necessary.
 - A high-level overview of the Platform Analytics architecture, components, data flow, stakeholders, and deployment process is required to get the most out of the Platform Analytics Advanced class. Users should complete the Platform Analytics Fundamentals Review a self-paced, on-demand eLearning prior to attending the advanced class.
 - SNF - ServiceNow Fundamentals
 - SNPAF - ServiceNow Platform Analytics Fundamentals
-

Content:

The following topics are discussed using a mix of labs and lecture:

- Understanding the Platform Analytics Adoption Journey
- Identify different Analytics Workspace components
- Understanding Scripts in Indicator Aggregates, Buckets, and Mappings
- Restricting Breakdown Element visibility with Allow List and Deny List
- Using various types of data sources to build data visualization in Platform Analytics
- Use Advanced data visualization techniques for impactful data summaries
- Building of more interactive dashboard in the Analytics Center
- Create Filters using data sources and apply them to various Visualizations
- Using Spotlight to identify high-priority work
- Leveraging Metrics for Reporting and Metric Based Indicators
- Applying Formula Indicator Techniques
- Configuring Index Indicators and External Indicators
- Mastering Analytics best practices and use cases for complex scenarios
- Deploying Analytics solutions, performing diagnostics, and system administration
