

Strategic Portfolio Management (SPM) Fundamentals

Duration: 3 Days Course Code: SNSPMF

Overview:

Strategic Portfolio Management is the process an organization uses to select, prioritize, and manage resources within its portfolio of programs, projects, and initiatives, which are used to meet strategic goals and objectives.

In this course, you will be introduced to the Strategic Portfolio Management (SPM) applications and learn how SPM encompasses a range of business capabilities, processes, and technological support aimed at enabling organizations to implement the three key attributes that help to see superior business results from their digital and technology-related investments: portfolio alignment, value-oriented decision-making, and continuous portfolio adaptability.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected.
