

IBM AIX Basics

Duration: 3 Days Course Code: AN10G

Overview:

Learn to perform everyday tasks using the AIX operating system.

This course provides lectures and hands on labs in an instructor lead course environment, either in a face-to-face classroom or in a live virtual classroom environment (ILO - Instructor Led Online). The lab images are using the AIX 7.3 operating system.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

This basic course is intended for anyone who requires basic AIX/UNIX user skills to be able to work in an AIX environment. This course is also a prerequisite for many courses in the AIX Systems Administration curriculum.

Objectives:

- | | |
|--|--|
| ■ After this course participants should be able to: | ■ Use the vi editor |
| ■ Log into an AIX system and set a user password | ■ Execute common AIX commands and manage AIX processes |
