

Administration of IBM DataPower Gateway 10

Duration: 2 Days **Course Code: WE531G**

Overview:

In this course, you manage the DataPower Gateway by using various management interfaces, such as the CLI, SOAP, and the WebGUI. You configure DataPower Gateway service resources. You examine the services supported on the DataPower Gateway. You create new user accounts, user groups, and domains in the DataPower Gateway interface. You troubleshoot the DataPower Gateway. You secure connections by using cryptographic tools and SSL. Finally, you capture information from DataPower events with logging.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

This course is intended for administrators of the IBM DataPowerGateway product.

Objectives:

- | | |
|---|--|
| ■ After this course participants should be able to: | ■ Understand DataPower services |
| ■ Describe the DataPower deployment environments | ■ Configure software access |
| ■ Set up the DataPower Gateway | ■ Troubleshoot and debug services |
| ■ Manage the DataPower Gateway | ■ Configure the DataPower Gateway security |
| ■ Explain DataPower administration | ■ Understand logging and log targets |
| ■ Create and manage requests with DataPower Gateway | |

Prerequisites:

■

Content:

- | | | |
|---|-----------------------------------|--|
| ■ Configuration | ■ Secure connections | ■ Exercise 2. Managing DataPower software with the CLI and XML Management Interfaces |
| ■ Services | ■ Logs | ■ Exercise 3. Debugging errors with troubleshooting tools |
| ■ Creation of new user accounts, user groups, and domains | ■ Practice Labs | ■ Exercise 4. Securing connections with SSL |
| ■ Troubleshoot | ■ Exercise 1. Configure DataPower | ■ Exercise 5. Logging to an external system |

Additional Information:

Official course book provided to participants
