

ISO/IEC 27005 Information Security Risk Management Foundation (PECB Certified) - Including Exam

Duration: 2 Days Course Code: ISO27005F

Overview:

ISO/IEC 27005 Foundation training course provides information on the fundamental concepts and principles of information security risk management based on ISO/IEC 27005.

ISO/IEC 27005 Foundation is a two-day training course that focuses on the information security risk management process introduced by ISO/IEC 27005 and the structure of the standard. It provides an overview of the guidelines of ISO/IEC 27005 for managing information security risks, including context establishment, risk assessment, risk treatment, communication and consultation, recording and reporting, and monitoring and review.

After attending the training course, you can sit for the exam. If you successfully pass the exam, you can apply for the "PECB Certificate Holder in ISO/IEC 27005 Foundation" designation. This certificate demonstrates that you have a general knowledge of ISO/IEC 27005 guidelines for information security risk management.

Target Audience:

The ISO/IEC 27005 Foundation training course is intended for:

- Risk management professionals
- Professionals wishing to get acquainted with the guidelines of ISO/IEC 27005 for information security risk management
- Personnel tasked with managing information security risks in their area of responsibility
- Individuals interested in pursuing a career in information security risk management

Objectives:

- Upon successful completion of this training course, you will be able to:
- Describe the main risk management concepts, principles, and definitions
- Interpret the guidelines of ISO/IEC 27005 for managing information security risks
- Identify approaches, methods, and techniques used for the implementation and management of an information security risk management program

Prerequisites:

- There are no prerequisites to participate in this training course.

Testing and Certification

The exam fully meets the requirements of the PECB Examination and Certificate Programme. It covers the following competency domains:

- **Domain 1:** Fundamental concepts of information security risk management
- **Domain 2:** Information security risk management approaches and processes

First, a candidate needs to complete the PECB ISO/IEC 27005 Foundation training course. Then, they need to take the exam and after successfully passing the exam, candidates will be able to apply for the "PECB Certificate Holder in ISO/IEC 27005 Foundation" certificate. This is an entry-level credential.

There are no prerequisites on professional or risk management project experience required. Thus, following the training course, passing the exam and applying for the certificate are the only certificate program requisites that certificate holders shall meet before obtaining the certificate.

The certificate requirements are as follows:

PECB Certificate Holder in ISO/IEC 27005 Foundation

- Exam: Pass the PECB ISO/IEC 27005 Foundation exam
- Professional experience: None
- Risk Management experience: None
- Other requirements: Signing the PECB Code of Ethics
