

## ISO/IEC 42001 Artificial Intelligence Management System Lead Auditor (PECB Certified) - Including Exam

Duration: 4 Days    Course Code: ISO42001LA    Delivery Method: Closed Events

### Overview:

**Gain the necessary expertise to audit artificial intelligence management systems (AIMS) by applying widely recognized audit principles, procedures, and techniques.**

Artificial intelligence (AI) has become integral to the success of many organizations by enhancing efficiency through automation and improving decision-making by utilizing advanced data analytics. However, organizations should ensure the appropriate and ethical use of AI. ISO/IEC 42001 enables organizations to implement appropriate processes and controls to ensure the responsible use and management of AI system. As the number of organizations seeking ISO/IEC 42001 compliance increases, there is a simultaneous surge in demand for skilled auditors possessing the necessary knowledge to assess and verify compliance. Therefore, PECB has developed the ISO/IEC 42001 Lead Auditor training course to empower participants with the knowledge and skills essential for planning and conducting ISO/IEC 42001 audits based on best audit practices.

The ISO/IEC 42001 Lead Auditor training course is beneficial for professionals seeking to stay ahead of the competition. This training course equips you with the expertise needed to navigate the intricate realm of AI-influenced organizational frameworks, ensuring you are well-prepared to contribute to the success of organizations in this transformative era.

After finishing the training course, you will be eligible to take the exam. After passing the exam, you will be able to apply for the "PECB Certified ISO/IEC 42001 Lead Auditor" credential. This certification proves your professional expertise in auditing organizations against ISO/IEC 42001 based on best auditing practices.

- Exam: PECB Certified ISO/IEC 42001 Lead Auditor exam or equivalent
- Professional experience: Ten years: Seven years of work experience in AI
- MS audit/assessment experience: Audit activities: a total of 1,000 hours
- Other requirements: Signing the PECB Code of Ethics

**Follow-on-Courses:**

No recommendation

**Content:**

Day 1: Introduction to the artificial intelligence management system and ISO/IEC 42001

Day 3: On-site audit activities

Day 2: Audit principles and the preparation for and initiation of an audit

Day 4: Closing of the audit

## Additional Information:

### **Educational approach**

This training course:

- Integrates essential theoretical principles, ISO/IEC 42001 requirements, and industry-leading practices employed in AI management system audits
- Enhances lecture sessions by illustrating concepts with practical examples derived from relevant case studies
- Facilitates preparation through essay-type exercises and multiple-choice quizzes, some of which are scenario-based designed to closely replicate the format of the certification exam

### **Building Digital Trust through Responsible AI Audit**

The ISO/IEC 42001 Lead Auditor training course significantly contributes to the creation of digital trust by ensuring that artificial intelligence systems are ethically and responsibly managed. By equipping participants with the skills to audit AI management systems, the training course helps organizations demonstrate their commitment to transparency, security, and accountability in AI usage. This enhances confidence among stakeholders, clients, and regulators, leading to the responsible and ethical deployment of AI technologies.

### **General Information**

- Certification and examination fees are included in the price of the training course.
- Participants will be provided with the training course material containing over 450 pages of explanatory information, examples, best practices, exercises, and quizzes.
- An attestation of course completion worth 31 CPD (Continuing Professional Development) credits will be issued to the participants who have attended the training course.
- In case candidates fail the exam, they can retake it within 12 months following the initial attempt for free.
