

Palo Alto Networks: Prisma Access SSE: Configuration and Deployment (PASSECD)

Duration: 4 Days Course Code: PAN-PASSECD Delivery Method: Virtual Classroom

Overview:

The Prisma Access SSE: Configuration and Deployment course introduces you to the operational deployment of Prisma Access Secure Access Service Edge (SASE) and how it helps organizations embrace the needs of the modern workforce by providing network connectivity and network security services from the cloud. This course will enable you to deploy, configure, maintain, and troubleshoot Prisma Access using Strata Cloud Manager. The course is intended for professionals in cybersecurity and public-cloud security, as well as general network-security professionals who want to learn how to secure remote networks and mobile users.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

This course is intended for Security Engineers, Security Administrators, Security Operations Specialists, Security Analysts, and Network Engineers.

Objectives:

- Successful completion of this four-day, instructor-led course will help enhance your understanding of how to better protect your applications, remote networks, and mobile users using a SASE implementation.
- In a lab environment, you will get hands-on experience configuring, managing, and troubleshooting Prisma Access via Strata Cloud Manager.

Prerequisites:

Participants should have a basic knowledge of cloud computing and the public cloud and experience with networking concepts, including routing, switching, and IP addressing.

In addition, participants should complete the following pre-requisites to be optimally prepared for the course:

- Prisma Access (Strata Cloud Manager) digital learning paths
- (Recommended) Firewall Essentials: Configuration and Management or equivalent experience.

Testing and Certification

Related Certifications:

- Palo Alto Networks Certified Security Service Edge Engineer
- Palo Alto Networks Micro-Credential Remote network Administrator
- Palo Alto Networks Micro-Credential Remote user Administrator

Content:

- Prisma SASE
- Prisma Access Architecture
- Strata Cloud Manager
- Licensing and Activation
- Service Connections
- Remote Networks
- Mobile Users
- Prisma Access Explicit Proxy
- ZTNA Connector
- Prisma Access Browser
- Autonomous Digital Experience Management (ADEM)

Additional Information:

Post-requisites:

There is a post-class assessment for this course. Please have students navigate to Beacon and search for 'Prisma Access SSE: Configuration and Deployment'
