

Palo Alto Networks: Panorama Centralized Network Security Administration (PCNS-ADMIN)

Duration: 2 Days **Course Code: PAN-PCNS-ADMIN** **Delivery Method: Virtual Classroom**

Overview:

The Palo Alto Networks Panorama: Centralized Network Security Administration course is two days of instructor-led training that should help you to:

- Learn how to configure and manage the next-generation Panorama management server
- Gain experience configuring templates (including template variables) and device groups
- Activate, configure, and manage Prisma Access using Panorama

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

- Security Administrators
- Security Operations Specialists
- Security Analysts

Objectives:

- This course should help students gain experience configuring and managing Palo Alto Networks Panorama management servers. Administrators that complete this course should become familiar with the Panorama management server's role in managing and securing the overall network.

Prerequisites:

Participants should complete the Firewall: Configuration and Management class (EDU-210).

Participants must be familiar with Palo Alto Networks next-generation firewall management and basic networking concepts, including routing and IP addressing.

Testing and Certification

Palo Alto Networks Certified Next-Generation Firewall Engineer

Content:

- Initial Configuration
- Adding Firewalls
- Templates
- Device Groups
- Prisma Access Overview
- Activate and Configure
- Templates and Device Groups
